

Lab Assignment #6 - Conditional Visual Design

Due 5/25

Using your assignment from `week 6`, categorize your survey data to convey a message or theme about your map. **Note:** You will need a non-open-ended question in your survey to make this task easier.

Requirements

- Use at least 2 different `layer groups`
- Use a `conditional if-else` statement
- Customize Leaflet's `circle markers`
- Add a title or a explanation that describes what is being shown

Extra Credit

- Try to create a different layout.
- Attempt the refactor challenge using your own way to refactor the code

Submission

- Commit your changes to GitHub
- Find your `index.html` in the `Week_07` folder and copy the URL. It should look something like this:
- https://albertkun.github.io/23S-ASIAAM-191A-Assignments/Week_07/index.html
- Paste your link as a comment in the Discussion forum for Lab Assignment #6:
- <https://github.com/albertkun/23S-ASIAAM-191A/discussions/23>
