

# Thinking cap #1

## Prompt

What do you think are problems with the way we use data and GIS?

## Part 1 - Respond

Respond to the prompt on [GitHub](#)

- 3 to 5 sentences minimum
- Feel free to include links and images

For more info see [how to submit thinking caps, part 1](#).

## Reminder!

To be eligible for extra credit, you **must** complete this part one day **before** the due date (e.g. 4/10 at 2pm PST).

## Part 2 - Reply

Comment on two other student's replies.

Leave a reply on the posts of two other students, reflecting on what you think of their discussion post. You can ask a thoughtful follow-up question, express similar experiences, and share resources.
