Do you plan to use weekend office hours?

Maybe, depends if we get stuck

Yes, the struggle is real

No

Week 10... the TEND is near! :O How are you?

Did you miss slido?

HAHA, slide-NO!

Yes, give us slide-mo!

Logistics

- **Thursday 6/8 - Last Lecture and Final Thinking Cap.**
 - **52324th reminder: Not recorded**
- **0 Weekend office hours? – Necessary??**
- **Final is on Tuesday 6/13!**

Rough Rough Drafts?

If you are stuck or have questions, please ask!

Remember...

Get help early and often!

**THIS IS WHERE I'D LIST STUDENTS
USING MY WEEKEND OFFICE HOURS**

**IF THERE
WAS ANYONE**

Why?

We covered a lot of content

There's no need to struggle implementing it all by yourself!

What is important is why you are coding!

DAY1 OF PROGRAMMING

10 YEARS OF PROGRAMMING

The technical “what” of coding will always be there to look up!

Reminder: Main coding take away...

Programming is not a solo endeavor.

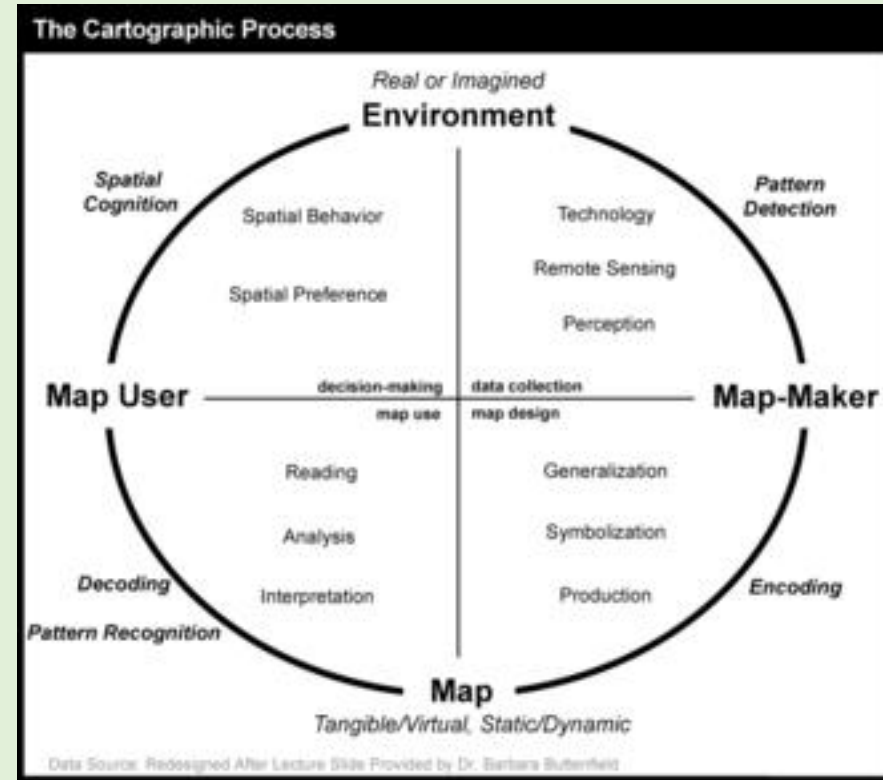

Coding gets easier with more people because programming ultimately is about communicating!

Design Justice in your mapapplications

What is the purpose of the map?

Who is the audience?

Is a map the best solution?

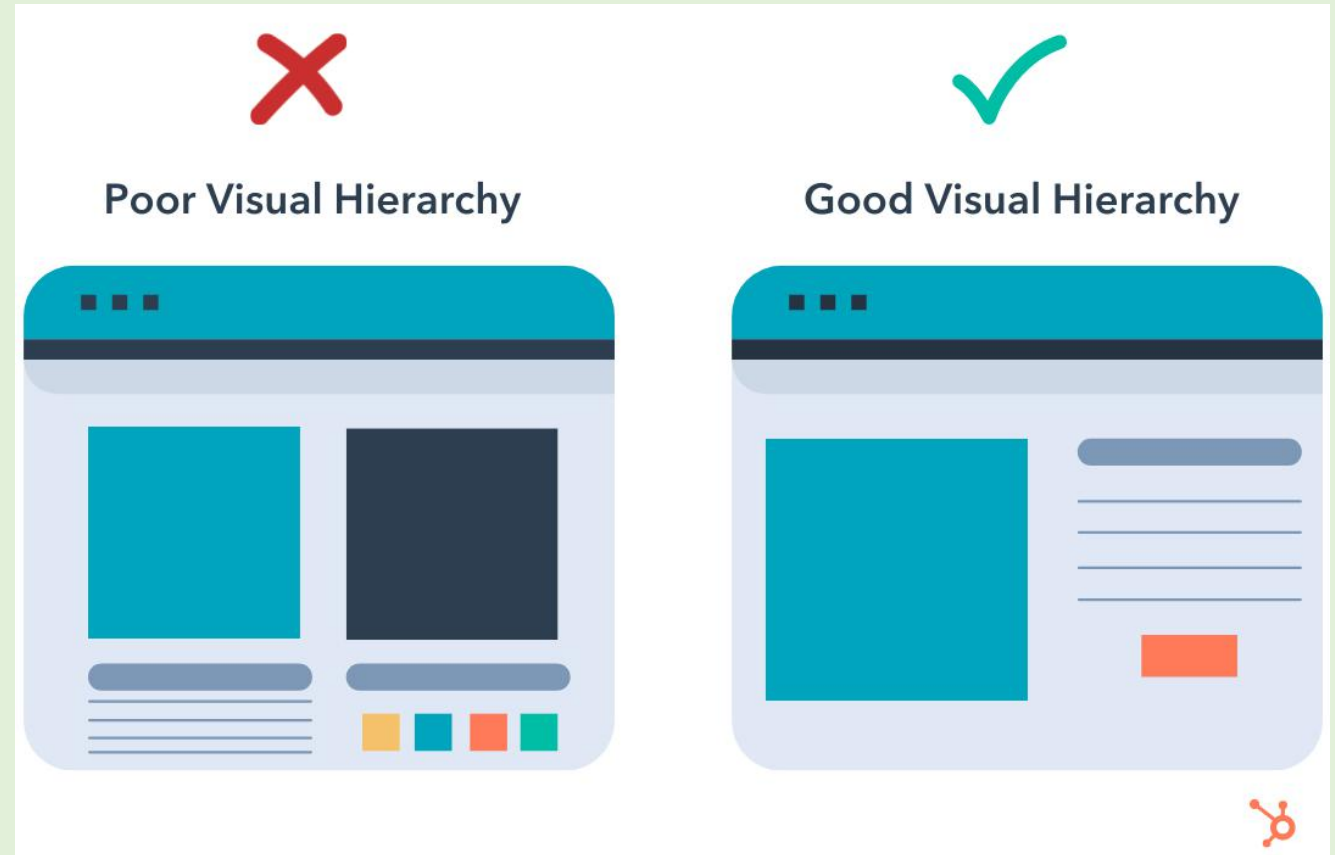

Thought exercise: Give your site to your parents, what do you think is their main takeaway?

The 5 Cartographic Principles

- 1. Concept before compilation**
- 2. Hierarchy with harmony.**
- 3. Simplicity from sacrifice.**
- 4. Maximum information at minimum cost.**
- 5. Engage the emotion to engage the understanding.**

“Mapmakers, indeed, have the ability to use (or misuse) cartographic principles to represent (or misrepresent) the spatial data...”

Visual Hierarchy

Put your survey respondent's stories at the forefront.

Visual Hierarchy

The Laws of Visual Hierarchy

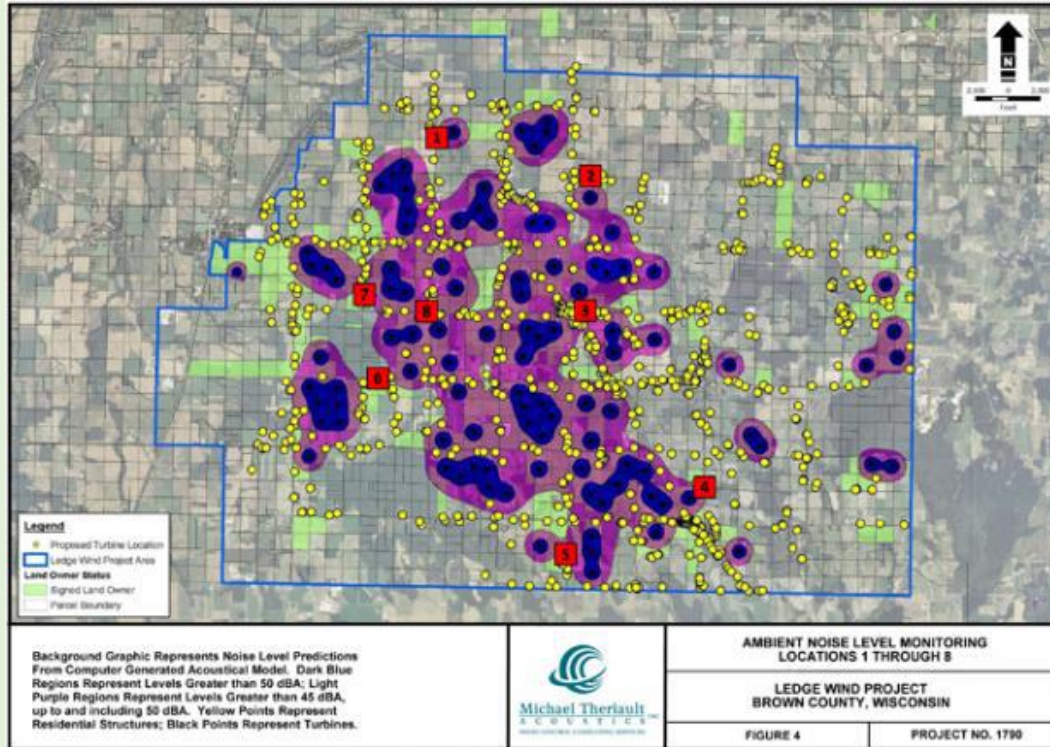

low visual prominence → high visual prominence

Size	small		large
Position	bottom of the page		top of the page
Color	low contrast		strong contrast, unique color
Format	text	images, icons	movement, video
Position relative to other elements	crowded on the page		surrounded by whitespace

 orbitmedia.com

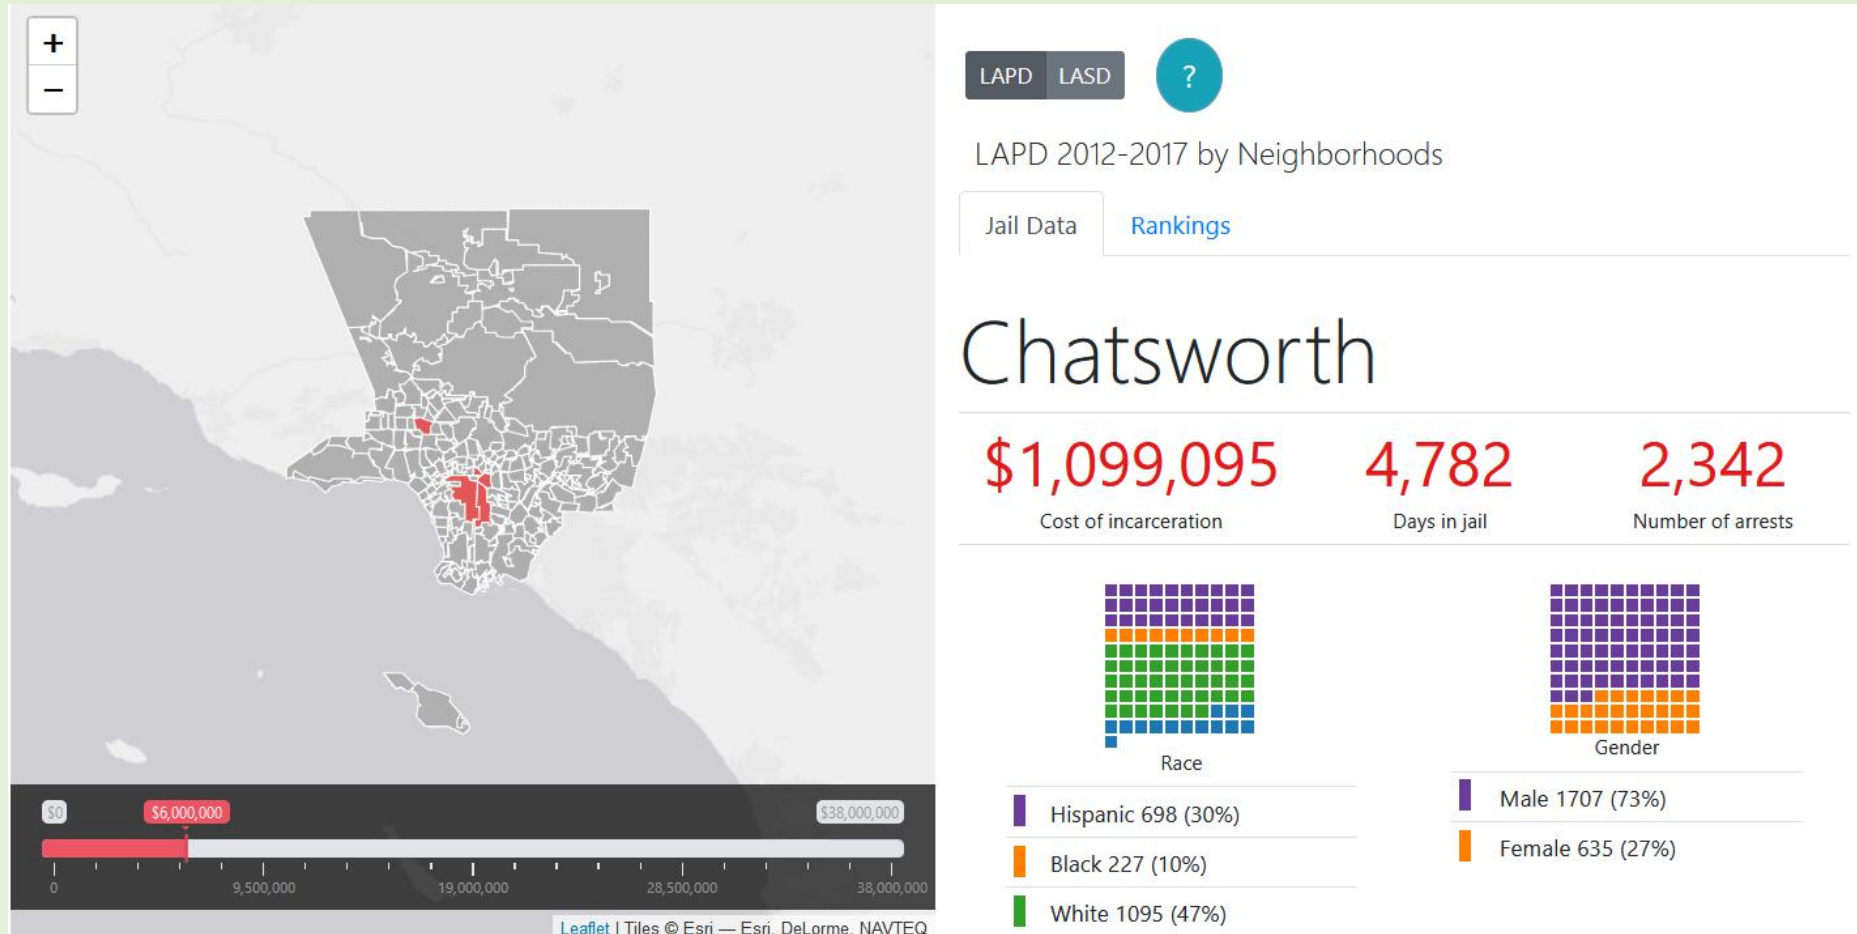

How?

Visual Hierarchy

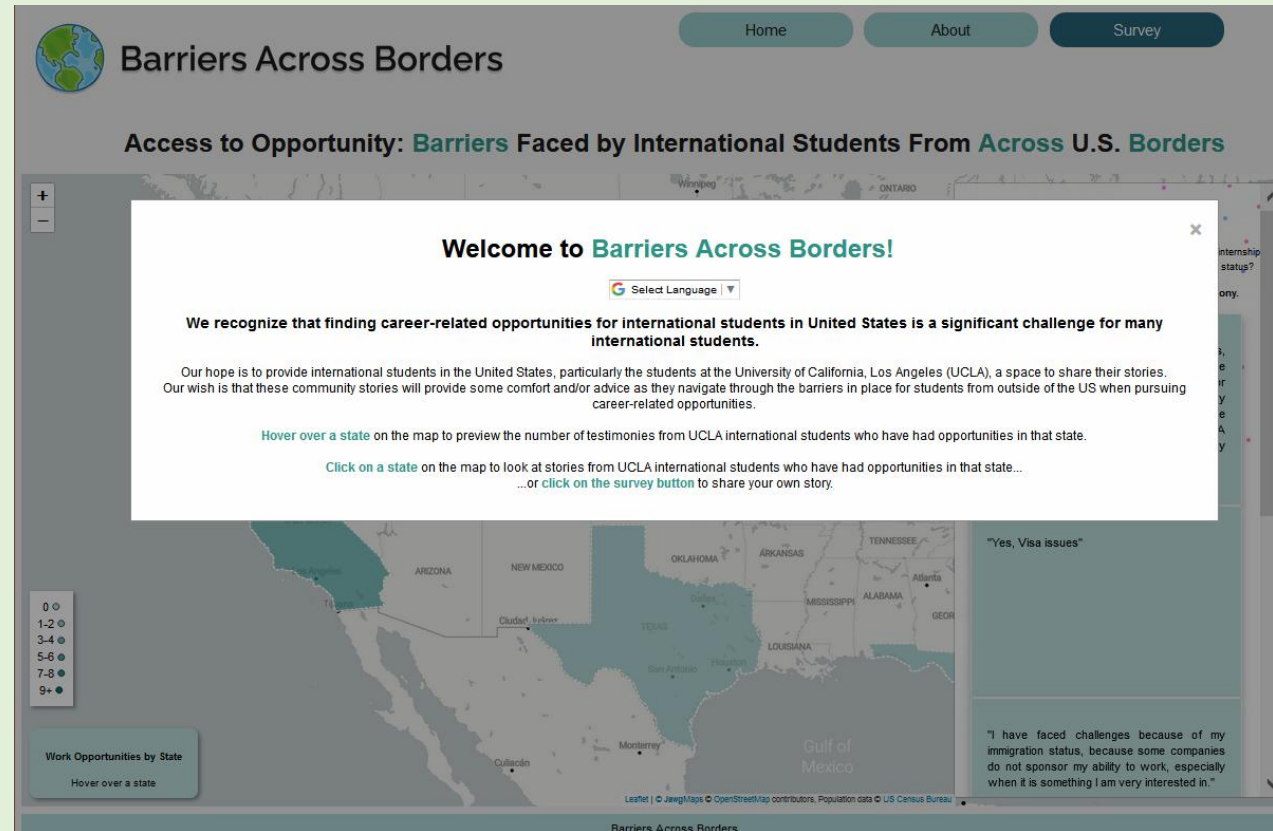

You have the option to dump data or to tell a narrative.

Primary Symbols

What grabs your attention when you first go to your website?

Design Justice in your mappplications

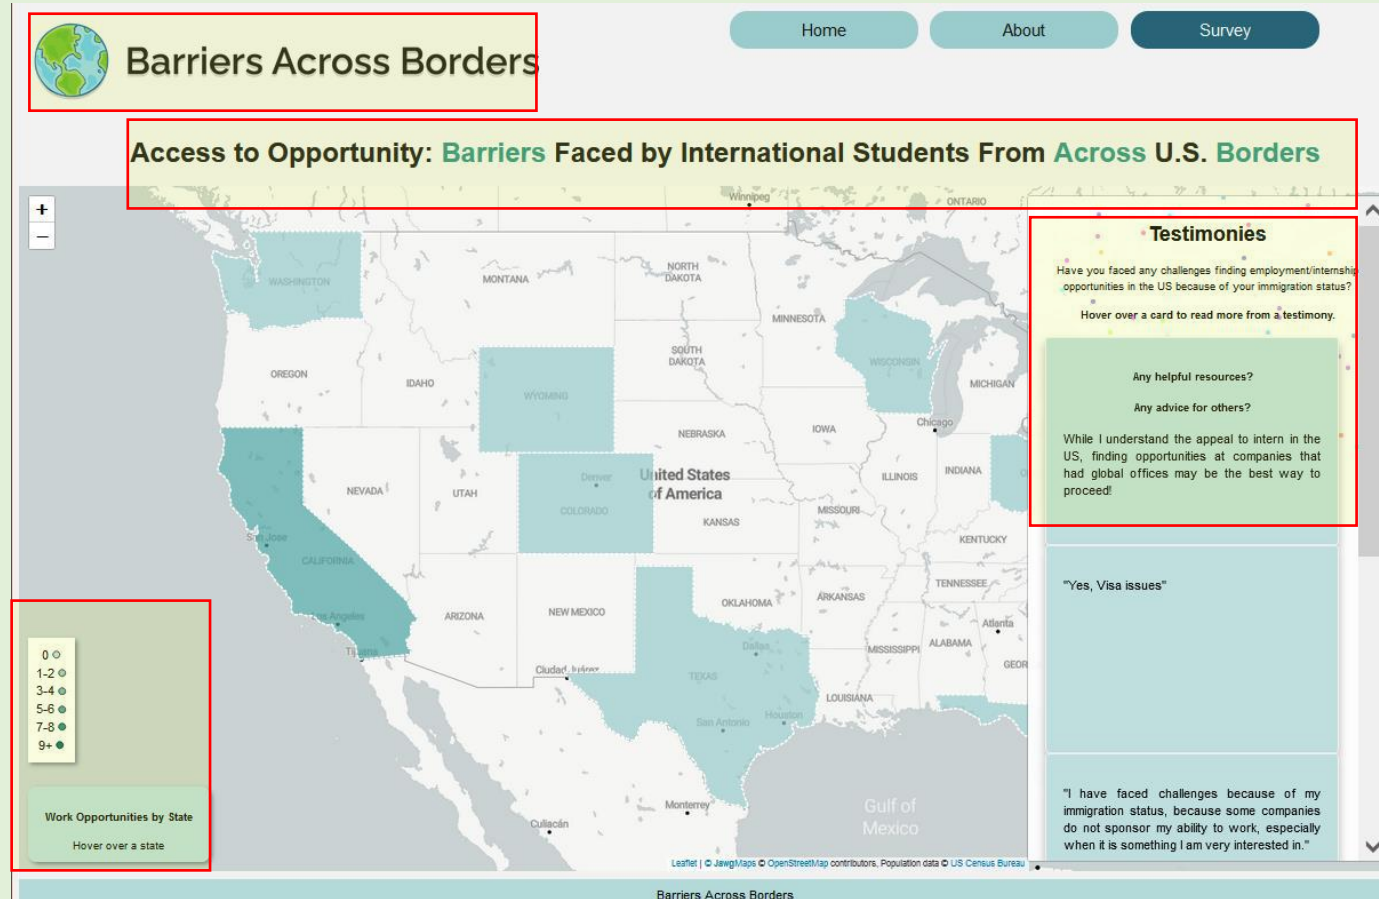

Thought exercise: Give your site to your parents, what do you think is their main takeaway?

Who are you making the mapplication for?

1. Unique Group name

4. Explaining what the symbols mean

2. Easily Understood map title

3. Survey data explaining why it is important and providing the questions themselves

Ingredients for a successful project, does not need to be this pretty but!!!!

Theme of the week

**Looking beyond web development and GIS for
social change**

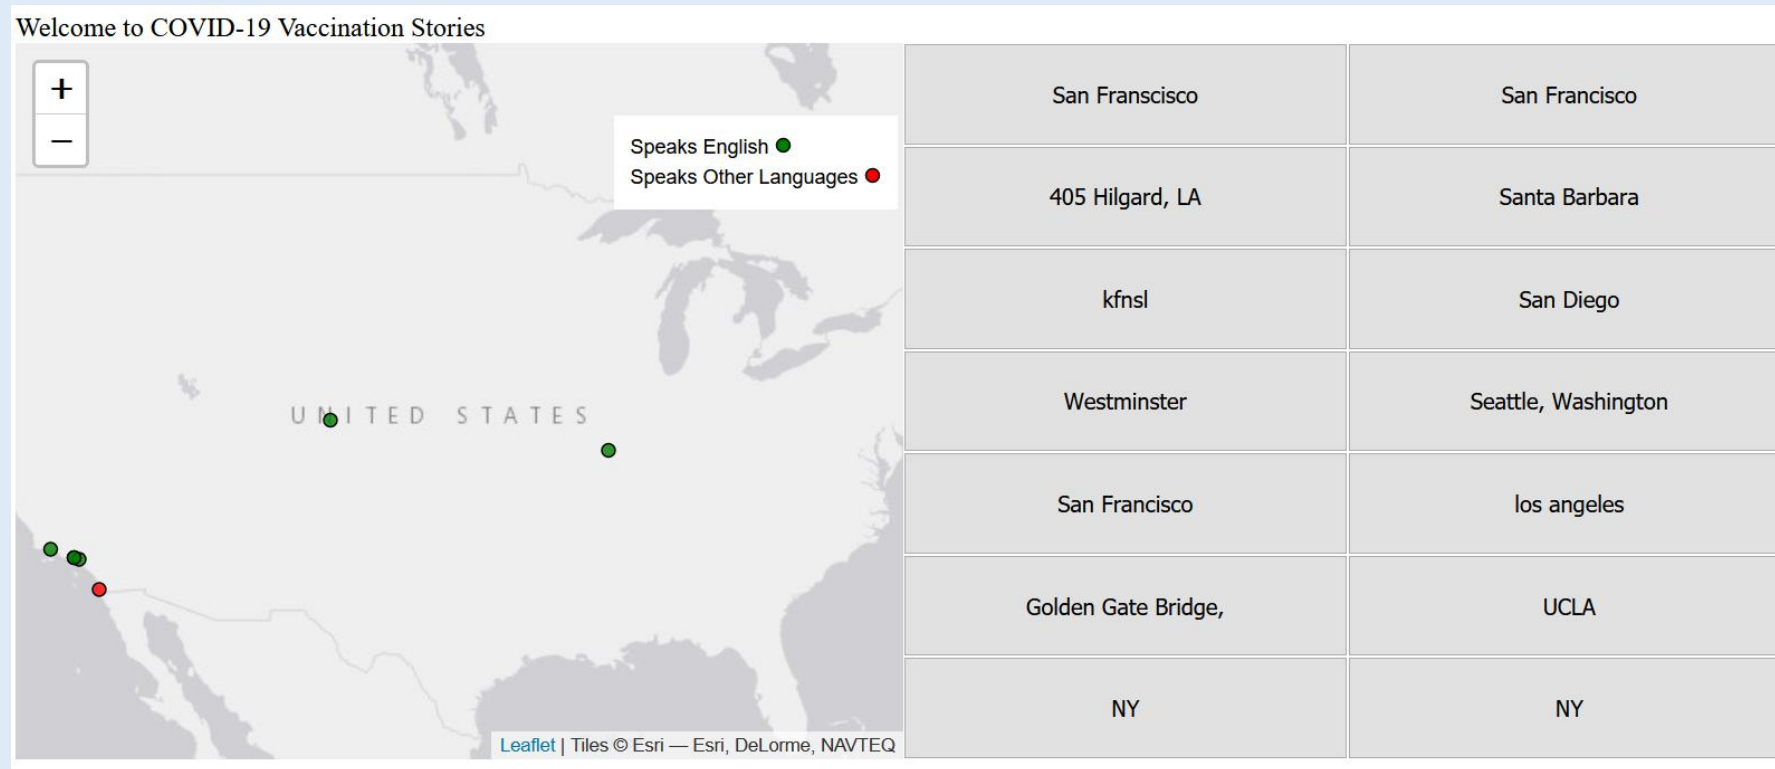

Final Finishing Touches

<https://albertkun.github.io/23S-ASIAAM-191A/labs/week9-10/>

Time to make our own legend!

Final Assignments

Due **Thursday 6/8**

- **Final Thinking Cap**
- **In-class lab (just one per group!)**

Due **Tuesday 6/13**

- **Final Group Assignment**

Final Thinking Cap Reminder

What are your thoughts about the future of web development for civil society?

Which visiting voice left the most impact on you?

What **people connections (if any) would you like to maintain from this class going forward?**

<https://github.com/albertkun/23S-ASIAAM-191A/discussions/27>

Due next week on Thursday 6/8 – Respond to just **one other student!**
