Hi class,

I finally coded up the solutions to your final exam. Now I just have to write instructions that'll allow you to code such solutions! I hope to put your minds at rest by providing some updated information now that it is available.

There will only be two questions. I hope this will allow lots of time for debugging. The topics covered are...

- Submitting data using <form>s.
- Redirecting using PHP headers.
- Using PHP sessions to share data across multiple pages (data unique to each individual user).
- Using the DOM as you did before the midterm.
- Using CSS to change font color interactively with JS or to apply another styling that is already given to you (for example, **https://www.pic.ucla.edu/~mjandr/CSS/css_w_js.html (https://www.pic.ucla.edu/~mjandr/CSS/css_w_js.html)**).
- AJAX requests.

Silent videos demonstrating the desired functionality for each question will be provided and shared on BruinLearn. In each question, you will be given the files that you have to turn in and much of them will be completed for you already so that you do not have to produce lots of code from scratch. These will also be available on BruinLearn.

Please put the index.html file that has already been uploaded to BruinLearn (at the top) in your public_html. This will redirect people who try to access your directory to my directory. At the start of the exam, I will give each of you a slip of paper. If I hand you a slip of paper and it says "KeanuReeves", then you should only work in folders whose name begins with "KeanuReeves" - e.g. "KeanuReeves88" and "KeanuReevesTestingForThe666thTime" - and at the end of the exam your files should be placed in KeanuReeves/Q1 and KeanuReeves/Q2, as well as uploaded to Gradescope.

If your computer struggles with battery-life, please make sure to bring your charger and sit near a power supply. I will bring some extra power extension cables.

Allowed resources...

- BruinLearn

- **https://www.pic.ucla.edu/~mjandr/ (https://www.pic.ucla.edu/~mjandr/)**
- **https://www.pic.ucla.edu/~your_username (https://www.pic.ucla.edu/~your_username)**
- **https://developer.mozilla.org/en-US/docs/Web ⤷ (https://developer.mozilla.org/en-US/docs/Web)**
- **https://jsfiddle.net/ ⤷ (https://jsfiddle.net/)**
- **https://www.php.net/ ⤷ (https://www.php.net/)**
- **https://onlinephp.io/ ⤷ (https://onlinephp.io/)**
- **https://legacy-sandbox.onlinephpfunctions.com/ ⤷ (https://legacy-sandbox.onlinephpfunctions.com/)**

Disallowed resources...

- Any messaging or file sharing service.
  - Mac users should sign out from "Messages" by opening it, going to "Preferences", selecting "iMessage", and selecting "Sign Out"
  - Using Email will result in disqualification from the exam
  - Using Google Drive, DropBox, OneDrive, or Box accounts will result in disqualification from the exam
  - Using GroupMe will result in disqualification from the exam
  - Using JSFiddle or PHP Sandbox maliciously will result in disqualification from the exam
- https://www.pic.ucla.edu/~someone_elses_username
- Chegg or similar
- ChatGPT or similar
- Anything that your parents would classify as cheating
- Anything not listed in the "allowed resources"

You should regard these regulations as an addendum to the syllabus. If your behavior requires me to report you to the Office of Student Conduct, I will include these regulations when requested for the syllabus.

Best,
Michael
